

Autodesk - your trusted partner for the new possible

AUTODESK 2023 VIRTUAL SOLUTIONS LAUNCH

May 20, 2022 (Friday) | 9:00 am – 4:30 pm

Time	Sessions
9:00 AM 5 mins	Welcome Speech English  Dr Wendy LEE Regional Manager, HK & Macau, Autodesk
9:05 AM 10 mins	Keynote Speech English  Richard LI Managing Director, Greater China Region, Autodesk
9:15 AM 20 mins	What's New in Revit 2023? Cantonese Revit 2023 offers architecture, engineering, and construction teams more fine-tuned, performant, and future-proof software tools for designing and building in BIM. Highlighted features will be presented.  Carol POON Technical Manager, AEC Industry, HK & Macau, Autodesk
9:35 AM 20 mins	What's New in Autodesk Construction Cloud? Cantonese Learn how construction can be positioned to significantly reduce costs, improve speed, and produce better outcomes with Autodesk Construction Cloud. New features on design and build will be introduced.  Carol POON Technical Manager, AEC Industry, HK & Macau, Autodesk
9:55 AM 20 mins	Connected Workflow for Project Management by Leveraging Autodesk Build English We would like to unbox the new possibility of managing your project efficiently by leveraging the cutting edge technology in Autodesk Construction Cloud.  YUE Yinglong Technical Solution Executive, Autodesk
10:15 AM	Mini Game
10:20 AM	Break (10 mins)
10:30 AM 25 mins	The Latest Update of Forge API Mandarin Cantonese Forge's primary goal brings data-driven workflow in business digitization and automation. This session will introduce the last update of Forge API, including FDx, Data Visualization, and Design Automation.  Eason KANG Forge Advocate, Autodesk  David FUNG Business Manager, E Tag Solution & Services Ltd
10:55 AM 20 mins	Civil 3D, InfraWorks and ReCap Pro Updates Mandarin With the latest Civil 3D, InfraWorks, and ReCap Pro feature updates, learn how version 2023 of these tools offers more features, more performance improvements, and more impact on your design efficiency.  Xiao GUAN Technical Sales Specialist, Autodesk
11:15 AM 20 mins	Overview of Innovyz Solution and Markets English This presentation will provide an overview of the Innovyz subscription products within Autodesk and their capabilities. We will cover the client requirements and provide links to find more information.  Chris RYAN Head of APAC Sales – Innovyz, Autodesk
11:35 AM 20 mins	Key Features of AutoCAD 2023 & What's New in Autodesk Account Cantonese Explore the newest features in AutoCAD® 2023 software, including industry-specific toolsets, new automations, and seamless connections across devices and Autodesk products. Take a quick look at the new features in Autodesk Account: Improved team management; Account insights; Assign users to a product in bulk; and Subscriptions and contracts in one list.  Ken LEE Technical Manager, Synnex Technology Int'l (HK) Ltd
11:55 AM 30 mins	Autodesk 2023 Solution Update - Media and Entertainment Solutions Cantonese This Session will share with you features highlight from Autodesk Maya 2023 and 3ds Max 2023. Experience the completely revamped Booleans Tool and the new Blue Pencil Tool in Maya 2023 . For 3ds Max 2023 , it brings new modeling capabilities to the popular retopology toolset and Working Pivot. We will also glad to share the M&E workflow to Metaverse!  Mark LAM Technical Manager, Synnex Technology Int'l (HK) Ltd  Marco CHOW Senior Application Engineer, Hong Kong, Stratasys South Asia
12:25 PM	Mini Game
12:30 PM	Lunch (1 hour)
1:30 PM 20 mins	Building the Virtual World with NVIDIA Omniverse Cantonese In this presentation, we will introduce NVIDIA Omniverse on 3D design collaboration and industrial digital twins. How virtual world enhance AI capability will be also discussed.  Dr. Charles CHEUNG Deputy Director, NVIDIA AI Technology Center, NVIDIA
1:50 PM 20 mins	BIM-FM: Level Up the Digitalization and Efficiency Cantonese In this presentation, we would talk about how BIM-FM enhance the operational efficiency, and how to use digital twins and IoT with BIM-FM.  Zita CHAN Business Development Manager, Florida Ltd
2:10 PM 20 mins	Autodesk Research into Digital Twins for AEC English This session looks at the Digital Twin explorations performed by Autodesk Research since starting Project Dasher in 2009, and how this research has influenced Autodesk's platform and product offerings.  Kean WALMSLEY Senior Manager, SW Architect · PSET-Platform Services & Emerging Technologies, Autodesk, Inc.
2:30 PM 20 mins	Autodesk Tandem English This presentation will cover the digital transformation challenges facing the AEC-O industry today. With Autodesk Tandem, we focus on harnessing BIM to create a highly repeatable process for realizing digital twins.  Tim KELLY Senior Product Manager, Autodesk
2:50 PM	Mini Game
2:55 PM	Break (10 mins)
3:05 PM 20 mins	Top Tools to Take Product Designs from Excellent to Exceptional English An introduction of Product Design & Manufacturing Collection (PDMC), the tools that engineers are using to go beyond 3D design work.  Ethan GENG Technical Solution Executive, Autodesk
3:25 PM 20 mins	Improving Modular Integrated Construction Workflow with BIM and Inventor Mandarin Modular building is one of Modular Integrated Construction which is designed in house, manufactured in factory and installed onsite. We will talk about how to optimize design workflow, speedup the modular building design with Autodesk solution, include conceptual design, detail design, fabrication...  LIU Xuedong Senior Technical Consultant, Autodesk
3:45 PM 20 mins	GIS BIM Integration for Construction Project Digitalization – ArcGIS GeoBIM Cantonese This presentation will introduce latest ArcGIS solution of GIS-BIM integration - ArcGIS GeoBIM and demonstrate how the solution support digitalization of construction project by combining BIM assets and geospatial intelligence.  Samuel CHEUNG Senior GIS Analyst, Esri China (Hong Kong)
4:05 PM	Mini Game
4:10 PM 10 mins	BIM's Got Talent Cantonese  Carol POON Technical Manager, AEC Industry, HK & Macau Autodesk
4:20 PM 5 mins	Closing Cantonese  Waiky LEUNG Sales Manager, AEC Industry, HK & Macau, Autodesk
4:25 PM	End of the virtual conference
